

# MOVING ON

INTERNATIONAL MOBILITY CONSULTANTS

## Hassle-free talent mobility for corporates and individuals

Think of all the things that could make life easier in the relocation process, then think Moving-On. We have developed local experience and industry expertise providing professional mobility solutions since 2003.

Our experienced teams based in Portugal and Mozambique help professionals and organizations move on to the next level of mobility; through relocation strategies and programs fully designed to meet your specific needs.

Our commitment is to ensure that as an organization, your human resources are ready to work from the minute they land in their assigned destination.

To achieve this, we provide a complete end-to-end mobility service from pre-departure and departure to settling, orientation and even onward movements.

Our expertise covers the entire immigration spectrum; visas and work permits, legal compliance, documentation translation, assisting with local registration such as health, driving at destination, banking, tax and social security.

We also assist with the details of relocation, encompassing the tenancy paperwork, housing, removals, storage and helping orient clients and their families in their new localities.

We are a member of EuRA (European Relocation Association) and hold their Global Quality Seal (EGQS), the world's first accreditation for relocation providers, certifying excellence.

# Student mobility

Understanding the requirements around obtaining your Student Visa is the key factor that enables you to arrive and start your course on time. We support the submission of Student & Work Visas as well as Residence Permits; dealing with all the mandatory documentation requested by the country of destination.

We also manage the negotiation and closure of housing contracts plus utility activation services such as water, gas, electricity, telephone and internet for our clients.

Moving-On launched the world's first relocation e-shop.

Head to [www.moving-on.co](http://www.moving-on.co) to discover how it works.

# Everything in one place

To support our clients on crafting and implementing the best mobility strategies, we deliver a very comprehensive and effective support service for professionals and their families, human resources as well as education institutions. **We offer more than the usual support with visas and immigration processes.**

## Pre-assessment

We assess the crucial personal, professional and financial considerations relating to your move to decide the best approach. If a spouse or partner will be moving too, what kind of opportunities will be available to him or her; from career to personal fulfilment. If there are children involved in the move, we assess available schools and activities in the new location. What types of support & healthcare are available for children or the elderly with special needs?

## Orientation

The best way to get a feel for a place is to visit it. Our unique orientation tours are made to suit personal needs; taking family & individual priorities into consideration. We'll plan it with you via video call. The core of orientation is to offer valuable and useful information related to schooling, cultural and traditional aspects, typical living conditions and the everyday routines of your potential new home. The accompanied orientation days can be 2 to 3 days.

## Coordinating your move

We'll use our deep local knowledge to provide assistance with requesting comparative quotes from removal companies; including coordination of house visits at origin for quotes.

## Language courses

You'll need to brush up your language skills! We research course options and registration procedures for Portuguese language courses (adults and children)—A2 level courses; citizenship exams. Individual sessions or group classes.

## Cultural awareness

We provide a customized cross-cultural orientation program to facilitate a smooth and quick adjustment to Portuguese living and culture.

## Expatriate partner coaching

A critical part of a successful move is having continuous support at hand once you have moved into your new location. Moving On will be there to help with this through our coaching program. All our coaches are professionally certified.

## Supported by technology

Our online services reduce time wasted getting places. Your relocation process is managed from the comfort of your own home in an entirely paper-free process. We organize, categorize and archive your relocation information, giving you private and secure access that does not require installation; available 24/7.

# Your move matters

Our highly competent team of experts work to the highest standards of professionalism, ensuring that your time with us is both stress-free and value-add. Our network of lawyers, accountants and other service providers also adhere to our high professional standards.
